

New Attorney Resource Guide

Your CEB Toolkit for the First 18 Months

You're Not Starting From Scratch

Through AccessLaw™, you have 18 months of free access post-graduation to CEB's full suite of California legal research and practice tools. These tools are designed to help you work more efficiently, build confidence, and bridge the gap between law school and practice.

Your Core Tools

OnLAW Pro™ – All-in-One Legal Research

OnLAW Pro is CEB's comprehensive California legal research platform, bringing together primary law, secondary sources, and practical guidance in one unified search experience. You can search across California and federal case law, statutes, rules of court, and CEB's own expert-authored content—all in a single interface.

With predictive, natural language, and Boolean search capabilities, plus powerful filters (by court, cause of action, procedural posture, and more), OnLAW Pro helps you quickly find the most relevant authority. Built-in tools like bookmarks, search history, and "copy with cite" streamline your workflow, while TrueCite integration ensures your cases are still good law.

Use it when: You need fast, reliable legal answers backed by authoritative California law.

Practitioner – Get the Work Done

Practitioner is CEB's California-specific legal know-how solution designed to help you move from research to action. Unlike traditional research tools, Practitioner provides step-by-step workflows that guide you through real legal tasks from start to finish.

Within each workflow, you'll find How-To Guides, Strategy Notes, charts, checklists, and annotated, attorney-drafted standard documents. With nearly 90 workflows and over 4,000 documents, Practitioner covers the vast majority of common California legal matters, helping you understand not just the law—but how to apply it in practice.

Use it when: You're handling something new and need a clear, practical path forward.

News – Stay Current

CEB News keeps you up to date on the latest developments in California law, with insights and analysis from practicing attorneys and judges. Content is tailored by practice area, so you can stay informed on the issues that matter most to your work.

Use it when: You want to stay informed, anticipate changes, and stay one step ahead in your practice.
