

Trusted California answers. Guided legal insight.

CEB Insight makes OnLAW® Pro research more useful by summarizing relevant authority to give you a deeper contextual understanding of your search query.

Available only in OnLAW Pro Unlimited, CEB Insight gives a faster path to clear, contextual answers drawn from CEB's trusted California secondary sources, case law, codes, constitution, and rules of court, with direct citations to the underlying sources. It's AI-enabled legal research designed to help California attorneys navigate increasingly complex legal questions with greater clarity and confidence.

With CEB Insight, you'll find:

- **Clear, trusted insight:** contextual answers pulled from relevant CEB content, so attorneys reach clarity faster.
- **Cited sources in one click:** every answer cites to a relevant CEB title and/or California primary law, providing the full context, not just the summary.
- **A familiar interface:** the experience is intuitive, easy to use, and designed around how attorneys actually search.
- **Honest by design:** when a query is too broad or falls outside trusted California authority, CEB Insight lets you know, giving you clear research guidance, instead of a confident wrong answer.

CEB is building intelligence directly into the OnLAW Pro workflow to help attorneys reach relevant content faster, understand the context behind it, and do sharper analysis. For questions of California law, you need answers built exclusively on trusted California authority. CEB Insight surfaces answers drawn only from CEB's secondary sources, case law, and statutes.

How does CEB Insight work?

As you search for a phrase or ask a question in OnLAW Pro, CEB Insight works in the background to provide a brief summary of the answer on top of your regular results. Each result is pulled directly from CEB's trusted secondary sources, case law, and statutes, meaning you get answers that are 100% based on California's nuanced law with direct citations to the underlying sources.

How to use CEB Insight:

1. Start your search as you normally do using natural language, common legal phrases or acronyms, or by asking a question
2. Watch as CEB Insight searches through hundreds of sources to find the best answer
3. Review the Insight summary and click directly through to the underlying content to find the most relevant resources even faster

What are the benefits of CEB Insight?

CEB Insight helps attorneys:

- Use AI to enhance legal research not replace legal reasoning
- Preserve the value of expert-authored, California-specific content
- Support junior attorneys in developing stronger research habits
- Reinforce confidence through verifiable, source-backed answers
- Enhance efficiency without disrupting existing workflows

What is OnLAW Pro?

OnLAW Pro is the go-to resource for legal research focused exclusively on California law. Whether you're handling litigation, navigating regulatory updates, or need a quick answer, OnLAW Pro delivers everything you need to make informed, confident decisions, including:

- **Complete access to primary law:** California statutes, case law, and rules
- **Ensure good law:** Confirm your citations are still good law with TrueCite®
- **Consistent, reliable updates:** The most up-to-date case law, statutes, and regulatory changes

How do I turn CEB Insight off?

CEB is committed to maintaining the confidence of the California legal community. Our AI responses are only generated from trusted, authoritative sources, but we understand that you may still want to work without it. Therefore, if you prefer to keep the standard search, CEB Insight is easy to turn off. Follow the steps listed below.

1. Access your Personal Account using the avatar in the upper right corner, then navigate to the Preferences tab on the left
2. Choose **Opt out of AI content** to turn off CEB Insight
